

Western Sierra Charter Schools
STUDENT INTERNET USE POLICY AND AGREEMENT

I. INTRODUCTION

The Internet is a place for the exchange of ideas and information. Accordingly, the Internet is an excellent educational tool that allows students to access a wide variety of information to supplement academic study and research. The Western Sierra Charter Schools (“Charter School” Mountain Home School and Glacier High School inclusive) provides students with Internet access to further their education and research. However, the access the Internet provides to computers and people across the world also provides access to materials that do not have educational value in a school setting. As such, students may encounter information and ideas they may consider obscene, controversial, abusive, or otherwise offensive. Despite these risks, the Charter School believes that the value of the educational information available on the Internet outweighs the risk that students may access information that is not consistent with educational goals and purposes.

The Charter School has developed and adopted this Student Internet Use Policy and Agreement (“Policy”) to ensure that student access to and use of the Internet is consistent with the educational goals and purposes of the Charter School. This Policy sets forth student responsibilities and duties when accessing and using the Internet through Charter School equipment and resource networks maintained by the Charter School. The Charter School has deemed certain uses of the Internet inappropriate for an educational setting and therefore not appropriate for use with Charter School equipment and resource networks. The Charter School stresses that an inappropriate use does not always mean that the use is in itself “bad” or illegal, but only that the use does not further the educational goals and purposes of the Charter School.

In addition to the below identified policies, the Charter School will use technology protection measures that protect against Internet access (by both minors and adults) to visual depictions that are sexual in nature, obscene, child pornography, or with respect to use by minors, harmful to minors. These measures may include, but are not limited to, installing a blocking system to block specific internet sites, setting Internet browsers to block access to adult sites, using a filtering system that will filter all Internet traffic and report potential instances of misuse and using a spam filter.

Students are reminded that their use of Charter School equipment and resource networks reflect upon the Charter School, and Students should guide their activities accordingly.

6. Obscene Materials.

Student acknowledges that obscene materials do not further an educational purpose. Accordingly, Student shall not use the Internet to access, upload, download, distribute, or transmit obscene materials or images. Obscene materials include, but are not limited to, materials that offend generally accepted social standards. This includes the access of or retrieval of any sexually explicit materials, and materials that are pornographic, abusive or threatening. Student further agrees that he or she will not access any Internet site which requires the Student to state that he or she is eighteen years of age or older as a condition of accessing the site.

The Student will be given the opportunity to explain why the Charter School should deem the activity in question a use consistent with the educational purposes stated in this Policy. If the Charter School deems that the use is inconsistent with the educational purposes stated in this Policy, the Charter School may terminate the Student's Internet and computer privileges. However, because one of the educational purposes in providing Internet access is to teach students to use the Internet appropriately, the Charter School reserves the right to fashion penalties to specific concerns or specific violations, and Student acknowledges that he or she may receive penalties less than full termination of Internet or email privileges. Such penalties may include, but are not limited to, restricted access to Internet or supervised access to Internet and email.
