

Summary of Competition Theme 2015 (Scout) - Due 2/5/15

1. **Read** the section of the [competition manual](#) titled “Context” on page 5 and “Need” on page 6 of the competition manual to get some background on the competition.
2. Next **read** the section titled “Request for Proposals – Science in Polar Seas” starting on page 6 and also the section titled “Oil and Gas Operations” starting on page 7 and concluding at the top of page 9.
 - a. **While you read Highlight or Underline** things you find particularly interesting or things you want to learn more about.
3. **Now write a summary** (1 paragraph minimum).
 - a. You can write a summary of everything you read **OR**
 - b. You can write a summary of one or two of the areas you found interesting (for example – A summary about the Terra Nove FPSO vessel or a summary about the studying the sea life in the artic).

****Reminder – A summary is not copying what you read, it is a using your own words that gives the main points of a piece of writing****
